# Genius pedestrian tunnel

**IS A PATENTED PRODUCT, INNOVATIVE AND UNIQUE ALL OVER THE WORLD.**

It performs an important task of preserving and ensuring people's safety from accidental falls of debris, materials and liquids from above in the presence of air platforms, air stairs, fixed and mobile scaffolds, and on other numerous occasions. The assembly is fast and very easy, it takes one person and only two minutes to place every single unit. The possibility to join more units together thanks to a fast and precise anchorage system allows

to create a protection corridor of infinite combinations, widths and lengths. Its structure composed entirely of light aluminium parts and super-resistant alveolar polycarbonate panels, and it is extremely practical and easy to transport thanks to its moderate size.

Genius pedestrian tunnel is an innovative product certified by the CE

## Pedestrian protection in any situation

**FROM SIMPLE IDEAS TO BRILLIANT PRODUCTS.**

The pedestrian tunnel Genius is a breakthrough in solving the problem of pedestrian safety on a worldwide scale. Wherever it's needed, the pedestrian tunnel will protect people in any situation. The

fields of application are vast and numerous, from the building sector to industry, from using it as a cover against bad weather to fairs, shows, or queues at the entrance to a museum.

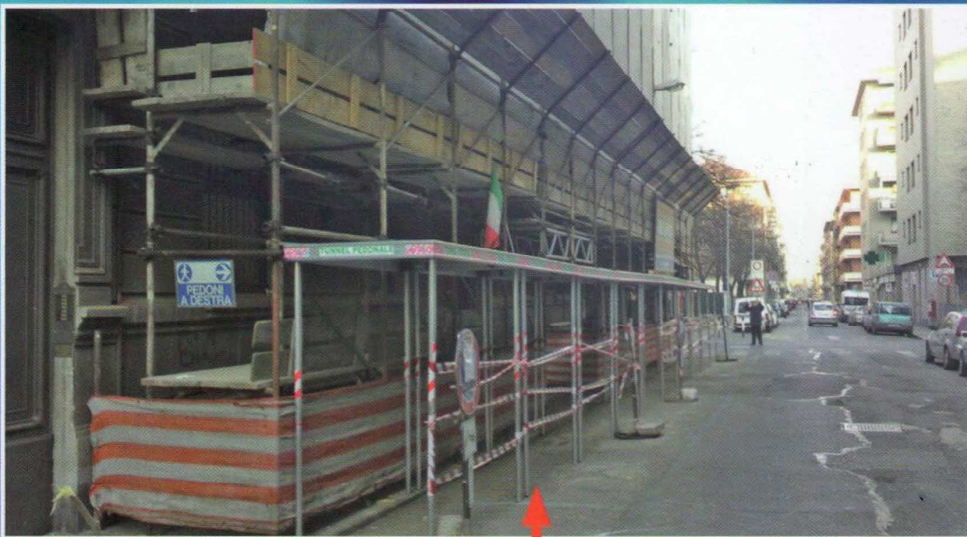

# THE FIELDS OF APPLICATION ARE VAST AND NUMEROUS

PROTECTION OF PEDESTRIANS  
DURING WORKS WITH  
AIR PLATFORMS

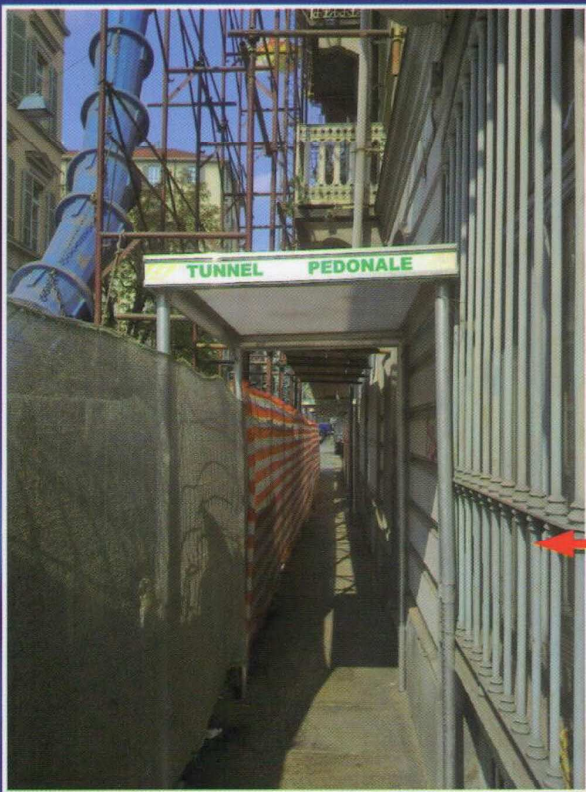

IN THE PRESENCE OF AIR STAIRS

PROTECTED CORRIDOR WITH FIXED OR MOBILE SCAFFOLDS

## SECURITY COMES FIRST.

Genius pedestrian tunnel guarantees the utmost safety both indoors and outdoors. It can be assembled on any surface, from a sidewalk to rough ground, on inclined planes and in the presence of obstacles, such as road signs or traffic lights.

Thanks to its independent telescopic supports it is possible to adjust the height of a single support which allows the assembly of the Tunnel everywhere.

## WELDING WORKS AND BURYING TUBES FOR OPTICAL FIBRE

## PROTECTION DURING THE REMOVAL OF ICE SHEETS FROM THE ROOF WITH AN AERIAL PLATFORM

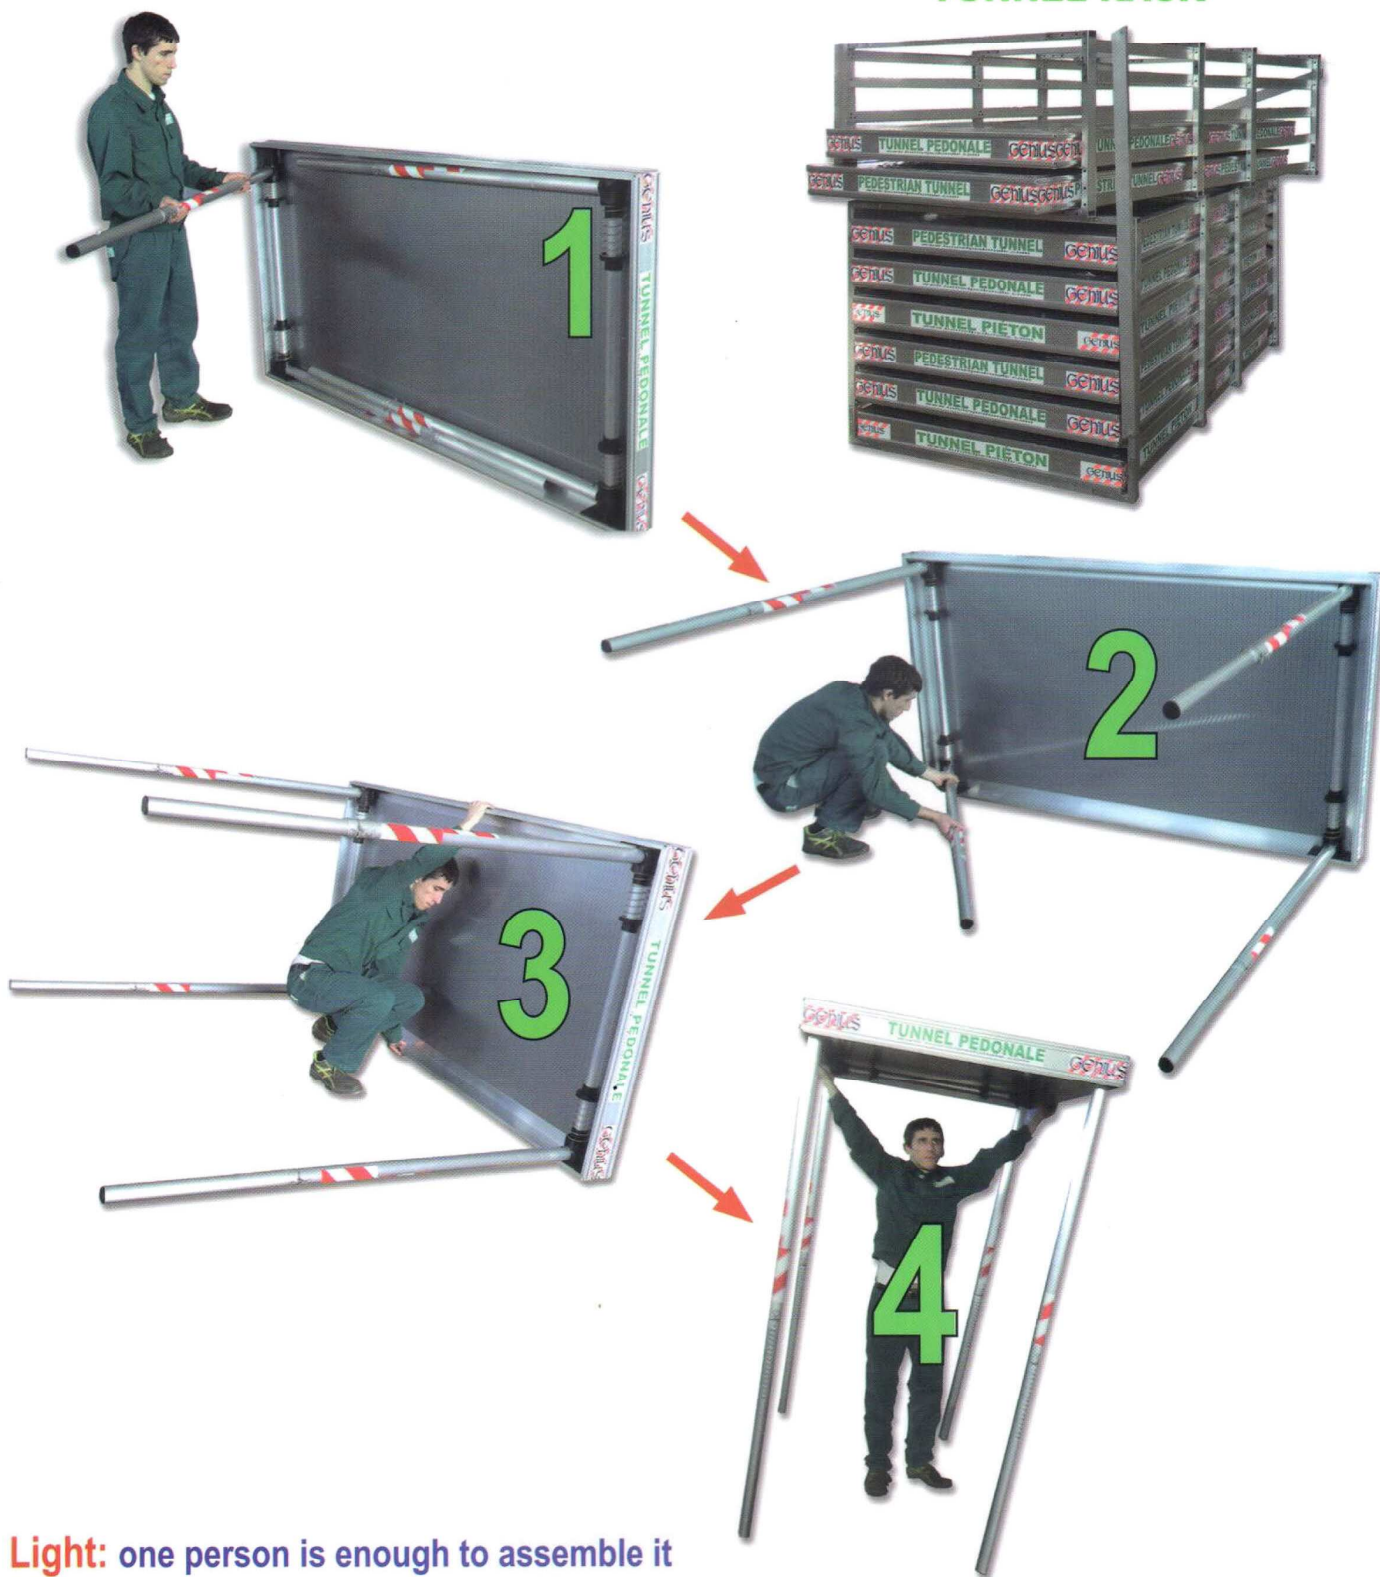

## GENIUS TUNNEL IS A CE CERTIFIED PRODUCT

# IT CAN BE ASSEMBLED IN LESS THAN 2 MINUTES BY A SINGLE PERSON

## TUNNEL RACK

**Light:** one person is enough to assemble it

**Compact:** moderate size and easy to transport

**Resistant:** it absorbs and protects against impacts also from significant heights

**Adjustable:** the supports lower and rise independently

**Flexible:** it adjusts everywhere and can form infinite combinations

# IT ADJUSTS TO ANY SURFACE AND IN THE PRESENCE OF TRAFFIC LIGHT AND ROAD SIGNS

Genius Tunnel can overcome any obstacle.

All the four telescopic supports made of aluminium contain a patented device which allows them to lengthen and get blocked in a precise and fast way. In the presence of steps, sidewalks, traffic lights, road signs, the Tunnel is extremely easy and handy to assemble.

**PATENTED AND TESTED  
SYSTEM OF WITHDRAWAL  
AND BLOCKING OF  
TELESCOPIC SUPPORTS**

**IN THE PRESENCE OF OBSTACLES,  
SUCH AS STEPS, ROAD SIGNS,  
WALKWAYS THE TUNNEL  
IS PERFECTLY ADJUSTABLE**

**EASY TO ASSEMBLE, SOLID, LIGHT, MODULAR**

**CLOSED UNIT**

**2150 mm**

**1140 mm**

**OPEN UNIT**

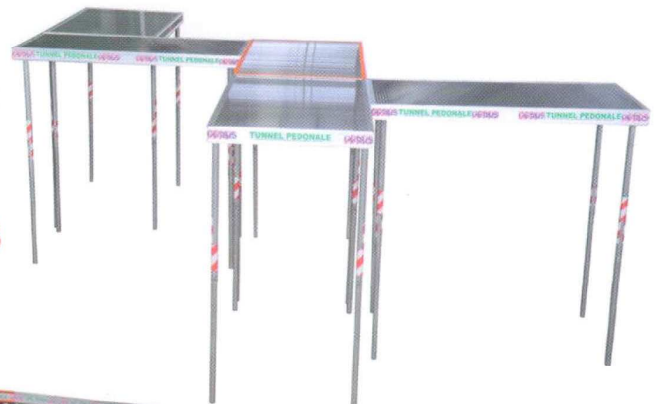

**FAST AND PRECISE JOINTS  
ON EACH SIDE OF  
THE UNIT**

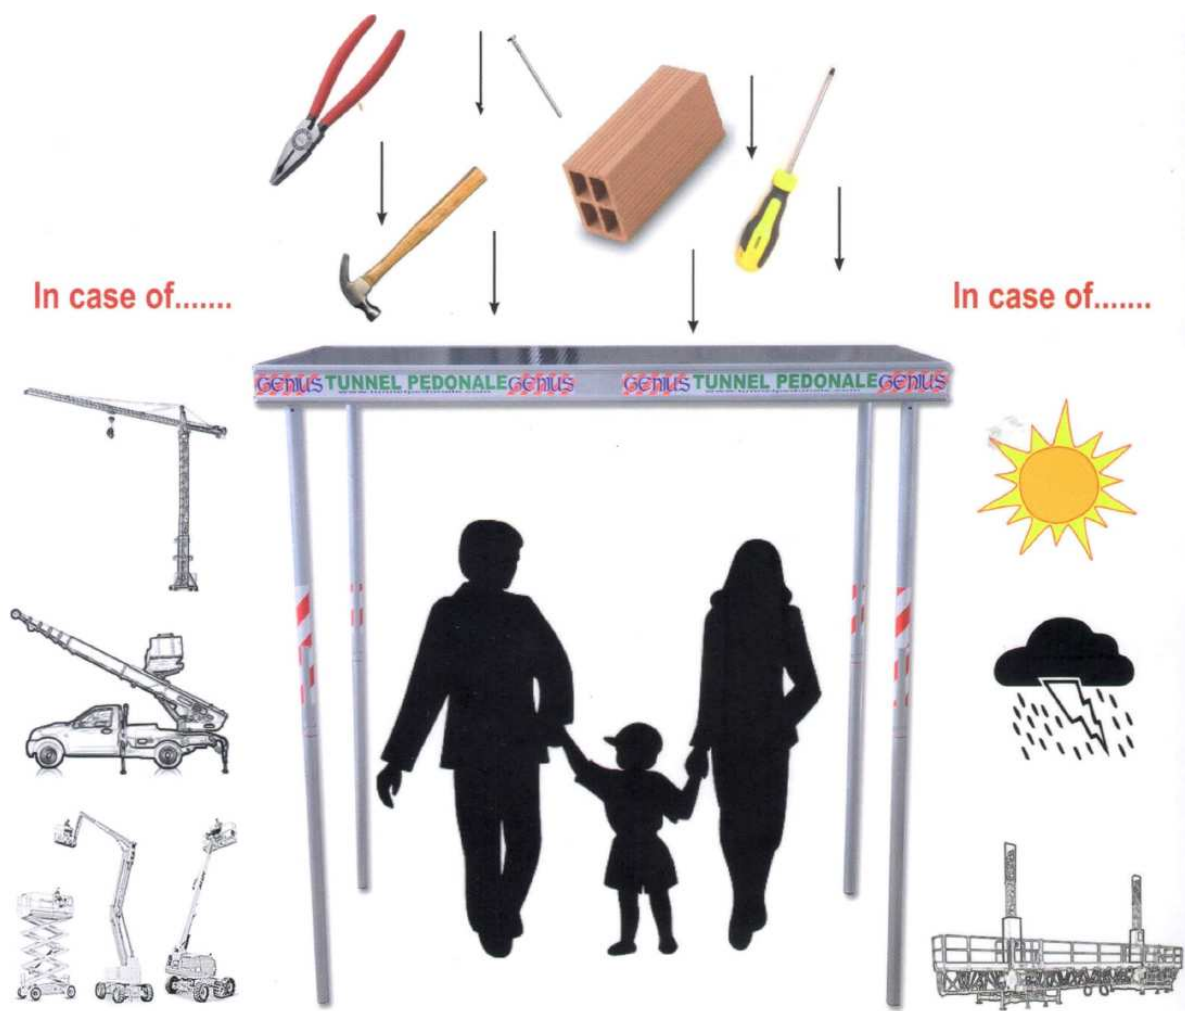

**TRANSPORTATION OF UNITS**

**INFINITE LENGTHS,  
WIDTHS AND COMBINATIONS**

**4 COLORS !**
